excise on sugar it appears highly probable that sugars produced in that country receive indirect export bountles as follows: Sugar below No. 20 Dutch standard, 5.60 francs per hundred kilogram; sugar No. 20 Dutch standard and above, 6.13 francs per bundred kllograms. Pending further investigation of the matter the liquidation of all sugars imported from or produced in Italy shall be suspended, and the duties shall be estimated in amounts sufficient to cover additional duties equal to the above specified bounties." It is stated at the Treasury Department that until recently Italy has produced only sufficient sugar for home consumption, but that latterly there has been a surplus and that this excess is now bounty fed, as stated. Up to this time there have been practically no sugar exports to the United States. XXX

FURTHER CONSOLIDATIONS.

Two More Steel Concerns to Be Merged with the Carnegie Company.

YOUNGSTOWN, O., June 18.-Information was received here to-night from a reliable source that at a meeting of the stockholders of the National Steel Company, to be held at East Orange, N. J., on June 27, a prearranged plan to consolidate the National and the Carnegie Steel companies will be effected. After this meeting the officers of the National Steel Company, which will then be known as the Carnegie Company, will be removed to Pittsburg and joined with those of the Carnegie Company, all being under one management.

CLEVELAND, O., June 18 .- In addition to the consolidation of the National Steel Company with the Carnegie Steel Company it is also understood that the identity of the steel hoop company is to be lost in that of the Carnegie Steel Company after the first of July. All contracts that shall have been made by the two companies by that time will be fulfilled by the Carnegie

CONSTITUTION REPAIRED.

Cup Defender Resumes Her "Tuning Up" Spins in Narragansett Bay.

NEWPORT, R. I., June 18.-After being laid up for two weeks for repairs to her broken steel mast, the Constitution resumed her tuning-up work to-day, going outside in a light breeze and sailing back and forth Brenton's reef lightship and Point Judith for about four hours. The trial to-day, while testing the repaired mast and rigging to some extent, was more especially for the benefit of the crew, for during the time the yacht was out practically every sail in the locker was set and taken in. Mr. Duncan said to-night that everything went smoothly, and that the yacht would go out every day. His immediate racing plans are not determined, but he probably will not take the Constitution to Glen Cove or other events on the sound arranged for this month.

Warrants for Heroes' Widows.

WASHINGTON, June 18 .- The Treasury Department to-day issued two warrants which recall the battle of Manila bay. One was for \$517 in favor of Mrs. E. A. Brumby, administratrix of the estate of the late homas M. Brumby, who was Admiral Dewey's flag lieutenant at that battle. The warrant was mailed to Mrs. Brumby at Marietta, Ga. The other warrant was for \$4.867, in favor of Harriet V. Gridley, administratrix of the estate of the late Charles V. Gridley, who commanded the Olympia. The warrant was mailed to her at Erie, Pa. These warrants are in payment of prize money due those officers.

TO UNIONIZE SALOONS.

Terre Haute Meeting of the Liquor League Will Discuss a Plan.

Special to the Indianapolis Journal. TERRE HAUTE, Ind., June 18.-The sixth annual convention of the Indiana Liquor Dealers' Association will meet here to-morrow with about 400 delegates present. and will be in session two days. Several important propositions will be considered, one of which is for a compact between the league and organized labor. The proposi tion was considered by the executive committee of the league recently and will be recommended by the committee for adoption by the convention. Under the proposes compact the members of the league would and liquors, except imported cigars. The members then would be furnished with a card from the Central Labor Union of his town and members of the labor unions would be asked officially to patronize only union saloons. It is said that the larger percentage of cigars now handled in saloons are nonunion.

WANT A GUARANTY.

Terre Haute Ministers Insist on Barring Out Immoral Street Shows.

Special to the Indianapolis Journal. TERRE HAUTE, Ind., June 18.-The Terre Haute Ministerial Association declines to accept the verbal promise of the officers of the Street Fair Association that "lewd and indecent shows" will not be permitted this year and has adopted a series of resolutions calling for more radical ministers and members of the Catholic clergy recently signed a protest against the dancing women shows. Thereupon the street fair management gave to the press a statement that no such shows would be accepted. Now the ministers say, in a pubunderstand that their resolutions "are not idle words," but were "indorsed by the vote church meetings," and that "there is no pledge from the officials of the street fair that the shows will not be permitted." Merchants and others who are solicited to contribute to the street-fair fund are asked not to pay their subscriptions until the end of the fair, and to make them with the understanding that they are not to be paid at all if bad shows are in the city.

Now, after thirty-five years of sustaining hundreds of heavy trains, the spot has begun to sink again and promises to be as troublesome as in former years. While the working crew was engaged in raising the track at this point a few days ago and dirt was being dumped into the place a gradual subsidence was discovered and when a big mogul engine pulled up and stopped on the "sink" the ground under the track sank almost twelve inches and the big machine almost toppled over before is could be pulled off. Workmen say that the rails over the place in one night sank below the level of the roadbed more than two feet and when trains pulled over it the rails vielded like rubber. A watchman is kept at the spot night and day and all trains are required to cross at a low rate of speed.

GAS METER ORDINANCE.

MARRIAGE AND DIVORCE

REPORT OF THE PROTESTANT EPIS-COPAL REVISION COMMITTEE.

Changes Proposed in Canons-Elopements Frowned On-Discipline for Divorced P rsons.

NEW YORK, June 18 .- The joint commission on the revision of the canons of the Protestant Episcopal Church, which was continued by resolution of the House of Deputies in the General Convention of 1898, and concurred in by the House of Bishops, has just made public its report which will be submitted for approval to the next General Convention in San Francisco next October. Attached to the report, but not incorporated in its text, is "the proposed canon on prohibited degrees," which revives the old discussion of the prohibition against marrying a dead wife's sister. This question has long vexed the lawmakers in Eng-

of Plymouth Congregational Church. His Elopements of young persons are frowned upon in the following words: "No minister shall sofemnize the marriage of any person who is a minor under law of the place of marriage unless the parent or guardian of such minor is present and consenting or shall have given written consent to the marriage if permanently resident in a foreign country

Another precaution against ill-advised marriages is taken. The canon says: "No minister shall solemnize a marriage except in the presence of at least two witnesses, the minister or the witnesses being personally acquainted with the parties. Remarriages by divorced persons is carefully considered thus: "No minister shall olemnize a marriage between any two persons unless or until by inquiry he shall have satisfied himself that neither person has been, or is the husband of the wife of any other person then living; unless the former marriage was annulled by a decree of some civil court of competent jurisdiction for cause existing before such former marriage.

Discipline for divorced persons is laid down thus: "No person divorced for cause arising after marriage and marrying again during the lifetime of the other party to garded by the attorney general as a most the divorce shall be admitted to baptism or munion except when penitent and separated from the other party to the subsequent marriage or when penitent and in immediate danger of death, but this canon shall not apply to the innocent party to a divorce for the cause of adultery. If the revisions submitted are adopted by the convention the canon law of the Episcopal Church will appear in a much simpler

GENERAL LABOR NEWS.

The 500 employes of the Keystone colliery, at Hudson, Pa., went on strike yesterday porarily out of use.

The International Printing Pressmen's Union has decided that its members shall not hereafter join any State national guard organization, on the ground that they do not believe in utilizing that power in strikes The Supreme Lodge of the Ancient Order and that they have no sympathy with State interference in labor troubles.

At Cleveland, O., yesterday Judge Stone, in Common Pleas Court, granted a temporary order restraining striking machin-Cleveland Punch and Shear Company, The latter averred that their new men were being intimidated by the machinists who recently went on strike.

In consequence of the refusal of the Hod Carriers' Union of Denver to abandon the strike for higher wages owing to the action of the Building Trades Council the council has determined to exclude all unions of unskilled labor. The Hod Carriers' Union and a war between the various labor organizations may ensue. Representatives of the Amalgamated As-

sociation of Iron Workers and the Manu-

facturers' Association held a conference at Cleveland yesterday behind closed doors for the purpose of adjusting the wage scale for the ensuing year. It is generally believed the matter will be settled by a compromise. About 40,000 men will be affected by any agreement that may be reached. President J. H. Patterson, of the National Cash Register Company at Dayton, yesterday issued a formal statement that the concern would open for work this morning. He says that representatives of the allied metal mechanics, composed of 1,100 men, called and stated their desire to go to work under the same conditions that obtained when the shop closed down. These, with all other employes save the metal polishers caused the shut-down. threatening to go out unless four men were

Tolstoi isn't a favorite nor a great power in Russia; his fight with the church weakened him. He would like to be exiled, but the government declined to make a martyr of him. Tonic Criticism a Help to Business

Establishments. New York Evening Post.

A unique calling has developed itself in this city. It may be called that of the business doctor. The business doctor is a man who goes to business houses, and is allowed to examine thoroughly the whole working of the "machine." He finds out, for example, how the letters are opened and distributed, how orders are executed. how many people are employed, what is the exact nature of the work they do, what are the wages they are receiving, and so on. In the case of a large concern he may need a week to get a full possession of the facts. and he charges at least \$60 a day for his work. When he has completed his investigations he draws up a report, and adds to it a number of practical suggestions. His object is to prevent waste, and especially to to be exceedingly embarrassing to these check the constant tendency in working ex- auxious gentlemen, and we must admit that penses to rise year by year without any compensating advantages. One of the largest department stores in

the city employed the services of a "doctor" recently. He found that the partners came down about ten and opened the letters towill join the State Federation of Labor, gether. As their correspondence was enormous, the opening of the letters necessitated a waste of much valuable time. He, therefore, advised that a woman, who was to be paid a salary of \$1,000 a year, should be engaged to open the letters before the partners arrived, and sort them, allotting each partner his own letters so that when the situation as thus far unfolded which he came down to business he might deal with them immediately. This recommendation was adopted, and has been found to save a great deal of precious time, as was intended. He also advised the rearrangement of the duties of the assistants. Some were receiving too much, others too little. Nearly all of his recommendations on these points were also adopted, and the result is that the firm is now getting its work done at a lower cost than before. Waste has been considerably checked, and efficiency has been proportionately increased. The business doctor earnestly advocates good | the Insane at Anna. Later a message was payment to really efficient people, and would have the test of efficiency stringently applied year after year. He condemns strongly the practice of automatically raising salaries according to length of service, irrespective of the quality of the service. Of course, he confines his work to giving recommendations. Whether these recommendations are adopted or not is no concern of his, so long as he receives his fee.

South African Gold Output. Springfield Republican.

The May production of gold in the Rand district of South Africa is reported as about 7,400 ounces. This indicates that mining is still far from having been re-sumed on a scale worth mentioning; for the production in May, 1899, before the war in the London Alhambra in 1859 Magilton broke out, was 444,933 ounces, and in sustained incurable spinal injuries.

Mr. McKinley's Inconsiderateness. While Mr. McKinley's declaration with regard to the third-term talk is calculated to relieve him of annoyance and embarrassment, he was very inconsiderate as to a certain few gentlemen. These particular ones for whom Mr. McKinley has manifested so little consideration are the agitated "antis" who have heretofore felt it their duty to speak of him as "the Emperor." Take Charley Towne, for instance-although Charley, come to think of it, is no longer in politics, but in oil. Take Mr. Bryan. How can he expect to be regarded seriously when he speaks of "the Emperor" to people who have just read the President's declaration? This is certain

the President has been very inconsiderate of them. No Credit to Mr. Bryan.

Washington Times (Dem.) Mr. Bryan adds nothing to the weight or dignity of his position by such suggestions as his recent one with reference to the nomination of Justice Harlan for the presidency by the Democratic party, Not only is it too soon to begin to talk about candidates, but there is nothing in gives political propriety to the suggestion. It indicates a desire on Mr. Bryan's part to get in a dig at those Gold Democrats who have twice aided in defeating him, rather than to argue seriously the
